OBJECTIVE

Motivated and detail-oriented web developer seeking to contribute creative problem-solving skills and innovative design strategies to build dynamic, user-centric web experiences. Eager to collaborate with a forward-thinking team, continuously learn, and enhance my expertise in delivering efficient, scalable, and impactful web solutions aligned with business goals.

SKILLS

Languages	: JavaScript, Java
Libraries/Frameworks	: Node.js, React.js, TailwindCSS ,Swing,AWT
Database	: SQL
Tools	: Git, GitHub

PROJECTS

Indeed Clone – *React.js,Material UI*   Website | Github

Indeed Clone is a job portal web application built using React. It replicates core features of Indeed such as job search, filtering by location and category, and browsing company/job details. This project is designed for practicing frontend development, improving React skills, and showcasing a professional job platform UI.

StreetWear Web – *React.js,JavaScript*   Website | Github

A modern, single-page web app for an F1 streetwear brand. Features a dynamic home, login, and sign-up forms (with controlled inputs and smooth state navigation). Built with React functional components and custom CSS for a clean, responsive, and scalable UI—ideal for e-commerce.

Jarvis Calculator – *JavaScript*   Website | Github

I have developed a basic Calculator using HTML, CSS, and JavaScript as a part of my web development learning journey. This mini project performs standard arithmetic operations like addition, subtraction, multiplication, and division.
